### What makes **SPORTEX** rods so unique?

They are not simply uniform rods 'off the peg'.

Every rod is an individual creation, even within the same series, adjusted in length, action and

component composition to suit the particular casting weight, distance and anticipated twist.

### For rods without compromise only components without compromise will suffice

Anyone who wants to be a world leader when it comes to making rods cannot allow for compromise. This means that **SPORTEX** rods are made with the best components in their

class, such as original FUJI guides and the latest generation of FUJI reel holders, natural cork of premium class AAA, and wear-resistant Duplon of the highest grade. A special lacquer paint is used for the partial or total coating of the rods, which is elastic and impact resistant, providing protection for years to come as well as a strikingly good appearance.

### We stand by our products — and that's quaranteed!

Our quality control procedures meet the highest possible demands, whether it is the selection of the material and components specific to the rod, the painstaking checking during the manufactu-ring process of the blanks or the ongoing inspections at the rod make-up stage. Every SPORTEX rod is an exquisitely crafted quality product.

And we, the manufacturers, stand by that with our 10-year blank guarantee\*.

\*Add-on parts such as guides and reel holders are covered by the statutory 2-year guarantee

# High-tech for your passion

There's nothing in the world to compare with a SPORTEX rod. It owes its legendary reputation to the power of innovation and the unique technology which for decades has set standards worldwide. Today, our rods are a byword for reliability and master craftsmanship.

Our rods are symbols of quality and long service, attributes which are becoming ever more important in these days of fast-paced living. It is with pride that we can say that SPORTEX rods have excited generations of anglers with their reliability in demanding situations and

their incredibly long life. Sustained research with new materials and material combinations are the bedrock. No other rod manufacturer can take advantage of such a wide range of materials for rod production.

## Every SPORTEX rod is the result of long years of practical experience and innovative technical know-how.

Our technical knowledge has grown over the decades. In the Fifties, we were renowned for the honey-coloured fibreglass blanks which set countless records in casting distance and precision. And when innovative carbon fibre materials arrived, we were among the first to recognise their potential for making rods, and put them to use. Thanks to our own SPORTEX HT-Cross Winding blank technology, our rods are unique in their combination of strength, lightness and speed.

## At the heart of every agile **SPORTEX** fishing rod are the right fibres and the innovative processing under which they go.

We use only the latest and highest quality carbon fibres for our rods, sourced from the leading manufacturers. What makes our knowledge and skills so special is how we achieve the specific mixture of the most varied materials, such as highly modulated carbon fibres, Kevlar, Boron or Zylon, and merge them into a frictional force-closed combination. This enables us to exploit the advantages of the individual

fibre materials, such as flexural strength and tensile strength, lightness, impact resistance, speed and resistance to breakage in optimum combinations. And the result? Rods tailored individually to specific types of fishing and angling techniques, with the fast action typical of SPORTEX; qualities which inspire champion anglers all over the world.

# HELICORE® BLANK TECHNOLOGY

### SPORTEX-technology of the future.

The Sportex Helicore Blank is a masterpiece in rod building, unifying the best possible features in all disciplines. The new technology is a strict development of SPORTEX's proprietary HT Cross Winding process, taking into account the latest in material science and manufacturing technology. The result: incredibly light and fast blanks that are more sensitive but at least as robust, strong and long lasting as millions of fishermen worldwide know it from SPORTEX. It simply fishes better than any other blank used in today's rods.

When casting, you will feel the difference: Postpulse oscillation is dramatically reduced and the blank loads up to 20% more energy — resulting in longer and more targeted casting.

The benchmark in rod building — just moved forward!

## **SPORTEX** AIR Spin Very light, very fast, very fine: this exclusive

Original Fuji

TORZITE Titanium-Guides

Fuji-Reel seat

series of rods features a combination of exquisite um frames amplify the feather-weight character characteristics. At their core is the new Helicore and boost casting like no other guide available blank, which is designed for maximum lightness. in the market.. Added to this, the extraordinary With its composite material of T800 carbon fibres loading capacities of the blanks mean that both, and special epoxy resin with finest nanoparticles, it gives the Air Spin unequalled speed and stability.

The ultra-light FUJI TORZITE guides with titaniartificial and natural baits can be cast with extreme precision at long distances without any major effort. The sensitive blank provides radarlike control and passes even the slightest of takes right into your handle, whilst retaining

unbelievable strength to handle the most explosive fight with superior ease. These rods - probably the lightest ones available – definitely donate an extraordinary fishing experience. The FUJI reel seats, a distinctive finish with the added touch of special varnish, and the high quality handles made of finest cork (sea trout) or Duplon round these outstanding premium rods off.

## **SPORTEX** absolut

The absolute highlight from **SPORTEX!** 

It took a good two years to develop, but with our nano-sized silica particles. This combination of the bility and strength.

Thanks to the Helicore blank, **absolut** rods are incredibly light, fantastically fast, sensitive and

extremely tough. Under normal conditions, they are unbreakable – however tough the going gets. rapid lifting, tremendous casting distances and a sary — these are all features that make this an outstandingly rod.

The extreme lightness makes hours of casting feel like child's play. The finish of the refined, modern-looking blank can be identified by

it's a **SPORTEX**. The top quality SIC guides and the high quality Duplon split-handles round off the image. Fish with this rod just once, and

New FUJI reel seat for excellent,

# **SPORTEX** Hyperion

Theses precious top quality spinning rods also base on our innovative Helicore® Blank.

This makes the series, like the absolut, real winners with low weight, great speed and powerful backbone. The perfect loading of the rod means

you can cast beyond the reach of other anglers.
The sensitive tip and the powerful backbone
make for perfect lifts, and the fish soon tires.
Of course, the Hyperion also has top quality Fuji
quides and a very high quality natural cork

handle. The handle length has been specially designed to create perfect balance in the hand and give fatigue-free casting.

This rod is a real casting machine, and makes spinning an experience to be treasured.

Video of the Carat Spin rod

# **SPORTEX** CARAT Spin

Return of a classic.

Constant requests for a remake of the Carat Spin made it clear the time had arrived for this classic rod to come into its own once again. And in order to meet the high demands made on the rod, the SPORTEX innovative Helicore blank was the answer. Through development of a special epoxy resin, using the finest nano particles,

SPORTEX has been able to make the blank not only faster, but a whole lot stronger as well.

Thanks to the unique design of the blank, Carat Spin rods are true lightweights, with very fast and sensitive tips that make for optimum guidjunction with the fast tip, means reliable striking and all the control you need when it comes to playing the fish.

The excellent loading characteristics of the rod mean long casts with maximum precision no ance of the bait. The powerful backbone, in conlonger pose a challenge. Carat Spin models are fitted with SIC guides, FUJI VSS reel seats, and top-quality cork grips. What more could anyone want?

Helicore® Blank

## **SPORTEX** Black Arrow

### Legendary spinning rod series

Here we introduce you to speciality models that have been developed for professionals requiring selected rods for certain situations.

These classic rods have become an integral part of our sport. They've been favourites amongst

top predator anglers for many years, both at sea and on the riverbank. Black Arrow rods have become a legendary series.

#### **BLACK ARROW**

The previous Black Arrow acquired legendary status amongst anglers thanks to its outstanding dynamics and strength. Fishing fans all around the world credited it with securing the fish of their dreams. But in the pursuit of excellence and driven by the growing appetite amongst anglers for specialised rods, we have developed a completely new Black Arrow series, taking full advantage of the latest advances in technologies and materials along the way. Thanks to a newly developed high-modulus carbon material, we have been able to make the Black Arrow even faster and more powerful; thanks to refined sensitivity, even the slightest pull on the lure can be felt; and, thanks to the extremely fast action, it's

easier than ever to react decisively to a direct strike. Enormous power reserves, so typical of Sportex rods, provide the strength to bring even hard-fighting fish under control. It goes without saying that the high reset capacity of the blank makes for really long casts. The fittings for these modern rods include the newly developed FUJI Alconite K-guides, a FUJI VSS reel seat and top quality cork split handle.

The Black Arrow series is available in lengths from 1.8m to 3.15m, with casting weights of 5g-110g, making it ideal for all types of modern spin fishing. **The new Ultra Light models** are available in lengths of 1,80m/2,10m and 2,40m, with casting weights of 1-7g.

#### JUST FEEL IT...

The ultimate challenge is catching pike, zander, and perch using the most modern methods. Direct contact with the bait, perfect feeling and the really hard twist... you can experience it all with the Styx. Nothing comes between you and the bait. Styx rods are ultra-light and have the kind of action you've

dreamed about. The design is simply coolness itself. These really special 'sticks' are inspired by the concept of Street Fishing. Less is often more, and this was the guiding principle behind this new concept. A couple of lures, a few accessories in your pocket, an exceptional rod in your hand, and you're ready. Whether it's the canal, the inland harbour, or

#### **STYXT**

Leightweight – direct – perfect feeling. Three synonyms for a Twitch rod. With regards to Length, action curve and fastness, the Styx T is made for playing hard and soft lures. Just like a Stradivari for professional musicians, the Styx T is the non-plus-ultra when it is about playing with the lures. Just like the Vertical the Twitch is available in spinning and casting design. erfect Length: 2.20 m

#### STYX B

Catch seabass with the STYX Bass and you won't stop dreaming of anything but this rod. Whoever is in slave of these aggressive sea-predators, does not get away from it. The STYX B stands by your side and doesn't let you down. Try this excellent rod on zander and you will find out it is just as good. Get your matching rod in two length and casting weights of 40 g.

Are you looking for the perfect contact to the the ultimate tool for direct lure control. Available as one spinning and one casting version. Perfect length: 1.88 m, Perfectly casts: 30 g

# **SPORTEX** Opal

### Innovative rods for ingenious angling – less material and less weight for increased dynamics

than just a face-lift. Using a brand new resin and surface refinement we managed to reduce the rods weight a lot. This weight reduction is supported by the latest development in Fuji reel-seats improving the rods action and sensitivity especially in the handle section.

These brand new Opal rods received a lot more Contact is much better now and one can perfectly feel and control every movement of the bait. No matter if you're fishing lakes, currents or tricky environments, these rods perform and deliver. Look at them and fish them there are things one can not describe!

### 10 YEAR **BLANK GUARANTEE**

These new Dropshot rods have been developed especially for fishing with modern artificial baits. The S-T-S full-carbon tip provides perfect bait guidance and allows fish to suck the bait in with e ase. The powerful backbone rapidly causes the fish to tire, giving full control over even the biggest 'customers'. The slimline blank, in conjunction with the new FUJI TVS reel seat (in carbon optic) transfers every bite straight back to the hand section. The FUJI Alconite guides ensure the line glides smoothly and free of friction for really long casts. At 2.10m and with a 10g casting weight, the shorter model is perfect for fishing from boats or sheet-pile walls, while the models at 2.40m (casting weight 15g) and 2.85m (casting weight 20g) have been conceived with bank fishing in mind.

OPAU DROPSHOT SPORTER

The new two-part, high-performance Jerk rods Alconite guides and a new carbon-look FUJI have been designed especially for big fis When it came to developing these rods, SPORTEX focused in particular on a slim, lightweight blank that would nevertheless retain a lot of strength. The fast, hard rod tip allows for lively, controlled strikes with large and smaller jerk baits. The sensitive blank conveys even the most timid bite into the hand section, while the powerful backbone keeps the hook firmly in place when bringing the fish up and playing it in. The optimised balance weights integrated into the grip guarantee tireless casting, and let the rod sit comfortably in the hand. FUJI

Baitcast reel seat round off the sporty design. Jerk rods are available in lengths of 180cm with 70g casting weight and 190cm with 100g casting weight.

Video of the Opal Jerk rod

The new Opal Vertical models are now available for fixed spool and bait cast reels. These highly sensitivity rods are ideal for boat fishing with modern plastic baits or, for exam ple, as Fireball rigs, performing perfectly when close to the bottom.

The rods are equipped with a highly sensitive tip, which betray even timid fish, as well as allowing them to easily suck in the bait. The slim but powerful semi-parabolic blank is characterised by its speed and lightness, while the rod's powerful action makes for confident and firm control over the fish on the hook.

Opal Vertical rods are available in 1.90m with 19g casting weight and in 2.00m with 30g casting weight.

Video of the Opal Vertical rod

The new, modern SPORTEX rod for the up-and-

coming generation of spinning enthusiasts. This rod has been developed especially for children, with all the components adapted especially to

the needs of the "little angler". For easier handling of the rod, the length of the rear part of the handle has been deliberately shortened, and a smaller reel seat incorporated. To make the

blank more insensitive to impact, the HM Carbon material contains a small proportion of glass fibres. Like other Sportex models, the rod is characterised by lightness and speed. The blank

has enough power reserves to bring bigger fish safely to the net, while the tough SIC guides provide for optimum heat dispersion and long casts. Of course, these rods can also be used by "bigger anglers" for perch, trout and other species.

# **SPORTEX** Carp Rods

#### FBC Car

A new era begins!

The extremely successful and popular 'old' FBC series of rods have caught thousands of carp all over the world, but now it's time to give them a complete upgrade. Certainly a rod like this carries obligations, and that's why the new FBC Carp rods are so impressive with their elegant finish and enormous action, which they draw from our pioneering new Helicore blank on a nano base. When the blank is manufactured, a special resin is used, which is mixed with minute nanoparticles. These tiny particles bond the carbon fibres almost entirely free of any gaps, which leads to an almost 30% higher loading capacity of the blank. This blank technology has

previously only been used among SPORTEX carp rods in the ONE Series.

The perfect loading properties of the lightweight blank allow for long, precise casts, which means that even spots at long distances can be reached with minimal effort. As well as this, the Helicore blank has extremely good damping properties, which help to reduce loss of fishover the last few metres of play. The progressive power transmission of the semi-parabolic blank gives the rod more than enough power to keep the fish away from obstacles and cause it to tire rapidly when being played.

The FBC Stalker rods have the same features as

All FBC models are provided with a very light but stable reel seat made of aluminium, top-quality SIC guides and slim Duplon handles. Available in 12ft at 2.75lbs, 12ft6ins at 3/3.25lbs and 13ft at 3.5lbs.

the FBC Carp Series adapted with regal 'stalking' technique boats. Due to the s in the boat when s when playing the for casting from th not come into cons

the FBC Carp Series. But they have been specially adapted with regard to length and action to suit 'stalking' techniques or fishing for carp from boats. Due to the shortness of the rods, handling in the boat when securing the bait and also when playing the fish is perceptibly better. And for casting from the bank, where long rods do not come into consideration, FBC Stalker rods really come into their own. The rods are available in lengths of 10ft at 3lbs and 11ft at 2.75lbs.

SPORTEX

Brilliant Carp — Original Fuji-SiCquides gunsmoke

1K-Mesh

### The slim power package!

The Brillant Carp set the standards in quality and reliability, so when we came to create this new version we focused on making the rod even faster and even more powerful. To achieve this, we have

used an entirely new high-modulus carbon material. During manufacture, the carbon fibres are compressed by a special process, which gives them stable blank; long, precise casts; and a powerful even greater tensile strength. Thanks to the use of this high quality carbon material, less epoxy resin is needed, and that gives the rod more speed,

more flexibility, and, above all, lightness. The advantages are obvious: an extremely thin and action when the fish is being played.

The rods are fitted with top quality original FUJI SIC long-casting K-guides, which reliably prevent the line from getting caught around the guides during casting.

The Brillant V2 also has a specially milled reel seat made of aluminium, with FUJI components. These exceptional rods are available in lengths of 10ft at 3.5lbs, 12ft at 2.75lbs / 3lbs and 13ft at 3.5lbs.

Guide sizes Carp Z 2,5 - 2,75 - 3

Guide sizes Carp Z 3,75

**SPORTEX** 

individual filaments of carbon fibre, giving the composite extra strength.

Thanks to the Helicore blank, ONE rods are extremely light and incredibly fast yet still

casting is much easier. The semi-parabolic action of the powerful blank ensures the perfect strike at long distances, and the fish is always under control during the fight. ONE rods

# **SPORTEX** Specimen NXT

The fame of the Specimen Carp series stretches back decades, and this completely upgraded successor is a gem of a rod thanks to its sophisticated design, top-quality fittings and improved carbon blank technology.

The new "HPC" process has enabled the carbon fibre material to be designed to take even greater loads and be even more flexible. This means the slim, progressive blank has enor-

mous power reserves — perfect for tiring out fish quickly when the fighting gets going. The rods bear the load effortlessly and have a high reset capacity, guaranteeing long casts with absolute precision.

For fans of classic carp rods, the NXT is available with a cork handle. There is also a Duplon split handle option and for those who prefer short rods, two excellent 10ft options.

The NXT series comes fitted with modern SIC K-guides, FUJI reel seat, and high-quality Duplon or cork handle (NXT Classic model). The two 10ft models, at 3lbs and 3.5lbs, are perfectly suited for river and boat fishing.

# **SPORTEX** Carp Rods

# **Catapult Carp:**

The focus in the development of the Catapult Carp Series was placed firmly on longer casting distances. The high-modulus carbon material used now makes the new blank even slimmer and faster. During casting, the improved loading characteristics of the blank help to catapult the rig over even greater distances. The rods naturally have all the strength in the backbone needed to tire the fish rapidly, and sufficient damping characteristics to reduce loss of fish. They are fitted with a FUJI reel seat and high quality SIC guides, as well as very fine, slim and durable 'Shrink' Duplon handles on the hand section. All in all, this is the perfect series of rods when you're fishing a particular spot at long distances. The rods are available in 12ft at 2.75lbs / 3lbs / 3.25lbs / 3.75lbs and in 13ft at 3.75lbs.

## **Catapult Spod**

To keep the fish in the swim, it's important to feed them regularly. And to enable this to be done at substantial distances from the bank, we have developed our Spod rods. To achieve the most precise and long-distance casts without major effort, the rods have excellent loading properties and are fitted with large high quality SIC guides (50mm butt guide). This means that the line can glide through the guides when casting without any significant friction. The Catapult Spod models come in 13ft lengths, at 5.5lbs and 8lbs. The Catapult Spod at 8lbs has been particularly designed to deliver substantial quantities of feed at long distances (such as with the large Spomb). During casting tests with conventional feed rockets, this rod achieved casting distances of more than 150 metres.

# **Catapult Marker:**

This rod is exactly what you need to help learn about the riverbed or lake bed. This is a real advantage, especially on waters where boats are not permitted. The large SIC guide arrangement (50mm butt guide) and the optimised loading behaviour of the rod allow for long, precise casts with the sensor weight and marker. The blank, with its extreme sensitivity, conveys information about the contours and condition of the bottom. A sliding rubber ring allows for an individual measurement length to be adjusted, so as to be able to determine the depth of the water more easily.

Original Fuji reel seat

# CATAPULT BOAT With a length of only

10 YEAR BLANK GUARANTEE

CATAPULT

With a length of only 9.2ft. at 3 lbs or 3.5lbs, these rods are ideally suited for carp fishing from a boat. When it comes to casting rigs or getting a hooked fish into the landing net, the advantages of the shorter length soon become very obvious — and very welcome. Thanks to the semi-parabolic action of the blank, there is always enough power in the backbone of the rod to tire even the strongest fish, and do it

fast. The Catapult Boat series also has a FUJI DPS reel seat, top quality SIC guides, and a continuous 'Shrink' Duplon handle on the handle.

# **SPORTEX** Team Waller Z

# TEAM WALLER "Z" VERTICAL HEAVY

The new vertical catfish rod is the ultimate answer for the really big heavyweights. The completely redesigned blank, using the HT Cross Winding process, is made of high modulus carbon fibres and extremely wear-resistant Zylon fibres. Together, they give this rod extreme stability and strength. This rod now makes it possible for vertical rigs to be guided with absolute precision over the bottom, to even keep the bait dancing around the

fish's head if needed. The powerful backbone ensures that the hook sits firmly after a strike, and the fish can be lifted and landed as rapidly as possible.

Thanks to the extreme lightness of the rod, fishing can go on for hours without the slightest sign of fatigue. This lightweight rod comes in a length of 200cm and a casting weight of 150-450g.

# TEAM WALLER "Z" DRIFT

The ideal rods for when you want to draw the bait over the bottom, for example from a boat. So as to be able to feel exactly what the bait is doing under the water, the rods have been designed with an extremely sensitive tip, which allows for perfect bait control and bite recognition. And when playing the fish, the progressive power distribution of the HT Cross Winding blank does all the work to tire the fish as rapidly as possible and bring it swiftly

to the surface with no trouble at all. The rods are available in lengths of 2.4m, 2.75m and 3m, with a casting weight of 200-400g.

# TEAM WALLER "Z" FIREBALL

The new vertical catfish rod is the ultimate answer for the really big heavyweights. The completely redesigned blank, using the HT Cross Winding process, is made of high modulus carbon fibres and extremely wear-resistant Zylon fibres. Together, they give this rod extreme stability and strength. This rod now makes it possible for vertical rigs to be guided with absolute precision over the bottom, to even keep the bait dancing around the

fish's head if needed. The powerful backbone ensures that the hook sits firmly after a strike, and the fish can be lifted and landed as rapidly as possible.

Thanks to the extreme lightness of the rod, fishing can go on for hours without the slightest sign of fatigue. This lightweight rod comes in a length of 200cm and a casting weight of 150-450g.

# **SPORTEX** Turbo Cat Rods

## THRRO CAT SPIN

The current world record catfish was landed in spring 2015 in Italy on a predecessor version of the Turbo Cat Spin. Our new Turbo Cat Spin is built to go even better, thanks to the use of the very latest materials available on the market. The HPC process used in the production of the blank boosts resilience and speed of the rods. The blank perfectly loads for long casts and features enormous reserves of strength to handle any catfish with ease. The sensitive tip allows for perfect bait presentation, and guarantees that even the slightest of takes is precisely detected. The rods are fitted with robust high-quality SIC guides and tough Duplon handles. Available in lengths of 240cm, 270cm and 305cm with a casting weight of 90-160g.

### THRROCAT ROLE

This series of rods has been completely upgraded, and, as well as the 3.3m version, they now come in lengths of 2.4m and 3m, ideal for using from an anchored boat. Casting weight of the rods is 250-500g.

To guarantee reliable tenseness when rigging the rods under adverse conditions, the blank has been designed to be taut enough to stay constantly in touch with the bait. The fine sensitivity of the tip gives a catfish adequate room for manoeuvre when taking the bait, so it doesn't suspect a thing. Thanks to the rod's powerful backbone, playing even a big fish in a strong current is no problem at all. The semi-parabolic blank provides perfect cushioning against any hard thrashing and battering by the fish.

Video of the Turbo Cat Vertical rod

The new Turbo Cat Drift is a real eye-catcher, with even better characteristics than before. The fine sensitivity of the blank has been improved still further, and now allows for better bait control and bite recognition during drift fishing. The strong backbone, in combination with the fast, sensitive tip, makes for reliable striking and controlled playing of the fish. Thanks to the harmonious action of the blank, even fewer fish get away, and they tire perceptibly faster while being played.

The right choice when fishing Europe's catfish hotspots from a boat.

Rods are available in 240cm, 280cm and 305cm lengths and a casting weight of 150-300g.

This rod was designed especially for modern Fireball angling. Particular attention has also been paid to the balance and lightness of the rod, making for hours of fatigue-free fishing. The tip is designed to provide optimum guidance of the bait, and the fish suspects nothing when rising to take it. The semi-parabolic blank has plenty of power in reserve to lift even big fish to the surface every time. And all this is backed up by an ergonomically divided front handle, which gives the rod better leverage when playing the fish. The Turbo Cat Fireball comes in a length of 190cm with a 170-300g casting weight.

Our new specialist rod for vertical fishing for big catfish. The single-piece blank, very light, extremely stable and flexible, is perfectly designed to go after big catfish using a wide range of vertical fishing techniques. Very good impact-absorbing properties and a powerful backbone mean that the rod allows for full control when the fish is being played. Thanks to the fine balance and the optimum handle length, this rod sits very well in the hand, and makes for fatigue-free fishing all day long. The Turbo Cat Vertical is available in a length of 185cm with a casting weight of 150-200g.

Another special rod in our Turbo Cat range. Going after catfish from float tubes is becoming more and more popular, but this calls for special rods. That's why we came up with the new 'Belly Boat'. The special length of the blank — only 177cm — its shortened rear handle together with a casting weight of 150-200g, allows for perfect handling, which is a huge advantage when it comes to playing and landing the fish from a float tube. During playing, the very light semi-parabolic blank provides sufficient strength for the fish to be brought to the surface without any major difficulties, while the sensitive tip allows for optimum bait guidance and reliably conveys every bite. This rod also uses an ergonomically divided front handle, which enhances the leverage effect when playing the fish.

absolut masins sported

absolut maging sportex 1

# **SPORTEX** absolut jigging

When it comes to chasing predatory fish, the Absolut sets the standards. Extremely light, extremely strong and extremely fast – it's what anglers' dreams are made of.

And now we've taken the revolutionary Helicore blank and used it as the basis for a series of sea fishing rods. The design is impresyou combine outstanding materials and creativity. We've really put the rod through its paces on the test stand, and we can honestly say that it's one of the best sea fishing rods we have ever made. When you see just what strength it simply takes your breath away.

The basic material consists of an HM carbon fibre matrix, which is melted with the aid of a unique epoxy resin to make an almost unbreakable bond. What's really striking is how such a slimline blank is as light as a fly rod – yet still extremely strong.

The light versions are ideally suited for light to medium speed jigging, while the heavy versions are ideal for large lures or medium-sized natural baits. These are the perfect rods for water depths of 50 to 80 metres, and the low water all day long without tiring at all. The absolut jigging comes fitted with high quality SIC guides and the latest Fuji reel seat.

Video of the absolut jigging rod

# **SPORTEX** Jolokia Rods

# **JOLOKIA JIGGING**

A sensitive tip and an enormously strong backbone make this completely upgraded series of rods really stand out from the crowd. Thanks to the precisely matched action of the JOLOKIA Jigging, Jigs can be guided in a very natural manner, and even if a real heavyweight gets on the line it is still possible to exert full control over the fish, every single time. The divided ergonomic front handle also helps with a better leverage effect when playing the fish. And thanks to the lightness of the blank, even hours of fishing heavy jigs is still lots of fun. The rods are fitted with very robust EVA handles, seawater-resistant SIC guides and a universal reel seat for using multipliers or fixed spool reels. JOLOKIA Jigging rods come in lengths of 1.85m and 2.1m with a casting weight of 150g and

## **JOLOKIA PILK**

The action of our new JOLOKIA Pilk series has been especially designed catching cod, black cod (coal fish) and other marine predators. The easy-bending blank, with its strong backbone, makes for real power when playing the fish and pumping it rapidly to the surface. On the other hand, the tip area is sensitive enough to detect bites rapidly, and cushion the flapping and head-shaking of a fighting fish. The lengths of 2.7m and 3m, with a casting weight of 110g, 200g and 400g, make these rods universally usable from a boat or cutter as well as from the shoreline. The model with 400g casting weight is specially

# JOLOKIA BOAT

The heavyweights in the JOLOKIA Series! Our all-round rods for no-compromise use with artificial and natural baits, such as in Norway, Iceland, on the Yellow Reef etc, for halibut, cod, ling and even Tuna. The extremely stable blank has a semi-parabolic action, and a particular characteristic is its enormously strong backbone. Despite this, the rods have all the sensitivity needed in the tip section to be able to guide the bait with absolute precision. The whole of the rod fittings, such as the high quality SIC guides and EVA handles, are designed to be tough, as well as resistant to seawater. Both the reel seat and the guides are suitable for using with multipliers and fixed spool reels. The JOLOKIA Boat is available in lengths

of 2.1m and 2.4m with casting weights of

400g and 600g.

The rods come fitted with saltwater-resistant SIC guides, a DPS reel seat, and tough EVA handles. With lengths of 2.1m, 2.4m (10-20lbs) and 2.7m (15-25lbs), everyone is ready for every situation. Let's get trolling!

## **JOLOKIA TROLLING**

designed for fishing with heavy bait.

Our special new rods for trolling for salmon, cod and others. During testing in the Baltic sea, these rods were really able to show what they were made of, forcing hefty cod and big salmon of up to 18kg into a real fight. The completely redeveloped blank, made of HM carbon material, proves it has what it takes when it comes to sensitivity combined with toughness. The tip section in particular has been designed to fend off aggressive bites and violent runs with absolute reliability

# **BLACK PEARL TRAVEL**

The ideal rods in case of very limited space. With 5 sections, it is perfect for any rucksack or suitcase and shows a great performance as well as great power reserves while spin- or bottom fishing.

The action is very harmonic and guarantees a lot of fun at rivers, lakes or sea. It comes in a quality hard case cordura tube!

Both models are available in 2,70m with 60g or 80g casting weight.

## **CARAT SPIN TRAVEL**

These short-sectioned travel rods are the perfect companion for your travel plans.

The clue: The Carat travel rods can be fished in two length – 2,40m with 4 sections and 3,00m with 5 sections! This great feature – for example using from shore and boat – has no influence on the remarkable action of the blank.

Whether abroad or at home, this rod offers you the best for every situation. Using the Helicore-Blank technology, the rod has great power reserves to reliably reel in unexpected big catches. The CARAT Travel is available in 40g and 65g casting weights.

# **SPORTEX** Match Rods

# **EXCLUSIVE MATCH L/M**

Our Exclusive Match rods have been completely redeveloped, with the focus on delivering an ultra-light, slim and fast blank. For the first time we have made a distinction between a Light Version (L) and a Medium Version (M) for an even more specialised range of uses. The very fine and extremely fast tip makes for a reliable strike, and the powerful backbone of the rod helps bring even big, hard-fighting fish under control. The high reset capacity of the blank and the narrow-spaced SIC match guides, set high from the blank, mean that long casts can be made without a huge effort,

even with light floats.

Both models are available in lengths of 3.90m and 4.20m, with casting weights of 5-15g (Exclusive Match L) or 8-20g (Exclusive Match M).

## RAPID MATCH

These match rods are also entirely new. As with the Exclusive Match models, the blank is very slim and fast. And thanks to the powerful blank, even medium-strength carp can be netted with the minimum of fuss. The narrow-spaced SIC match guides, set high from the blank, prevent wet lines from sticking to the blank and make for long, precise casts. The Rapid Match is available in lengths of 3.90m and 4.20m, with a casting weight of 8-16g.

10 YEAR BLANK GUARANTEE

# **SPORTEX** Coarse Rods

# HEGENE

Our newly-developed, extremely sensitive rods, especially for going after specimen whitefish (Renke/Coregonus). The slim, finely sensitive and time. And the optimum balance of the rod fast blank, made of high modulus carbon fibre, provides enormous reserves of strength, particularly in the handle, meaning that even really big fish, such as char, brown trout etc, can be landed with confidence. The two different full-carbon fibre tips supplied can be relied on to reveal any 5-25q).

nibble, however slight, and their speed ensures that every fish will be brought up safely, every means that fishing for hours without any signs of fatigue is a certainty.

The rods come fitted with SIC guides, high quality cork handles and a VSS reel seat (1.90m / 2.10m 3-10g) or a sliding reel seat (2.40m

# **MULTIPICKER SWING TIP & WINKLE PICKER**

All-purpose due to 2 complete tip sections including 2 Winkel-picker tips and a swing tip with a common handle section.

Anglers who have devoted themselves to fishing with swing tip and winkle pickers will be thrilled by this rod concept. The Multipicker can be used for both types of angling.

The special feature about these Multipickers are the 2 complete tips and the common handle section, which, depending on the tip section, provides easy bite indication.

## **SPORTEX** Feeder Rods

#### **RAPID MEDIUM FEEDER**

These new universal application feeder rods for still and flowing water have a top price-to-performance ratio. The fast, slimline blank, made from high-modulus carbon, guarantees an immediate strike. The three sensitive feeder tips which come with the rod, in thicknesses of 1.5oz, 2.0oz and 2.2 oz, signal a bite whatever the water conditions. The powerful backbone of the rod, in conjunction with the extra large guides at the tip, help to ensure long, high-precision casts. The Rapid Medium Feeder is available in lengths of 3.60m and 3.90m, with casting weights of 90g-150g.

#### **EXCLUSIVE FEEDER LITE**

Climax has completely redeveloped its rods for traditional lightweight feeder fishing. What's immediately striking about the new Exclusive Feeder Lite is the extremely slim and light blank, made of top quality HM/IM carbon fibre. The rod exhibits first-class loading behaviour, which allows long, accurate casting every time. The powerful backbone ensures that even bigger fish come safely to the net. Each rod comes with three sensitive feeder tips equipped with large guides to ensure even the most sensitive of bites are not missed. This is the perfect rod for fishing in light currents or standing bodies of water. The Exclusive Feeder Lite is available in lengths of 3.30m, 3.60m and 3.90m, with casting weights of 40g-80g. Included Feeder tips: 1,0/1,5/2,0 oz.

#### **EXCLUSIVE MEDIUM FEEDER**

Endusine Forder The SPORTEX

CARRON FIREL .

Here is the feeder rod for all situations. The slim, lightweight HM/IM carbon fibre blank is a real winner, with terrific speed and strength in reserve. It will take tough fighters like carp and barbel in its stride, yet is still sensitivity enough to play small redfish. These versatile models are also very well-suited for bank fishing for zander with small bait fish. Thanks to the excellent recovery of the blank, long, precise casts need little effort.

The rods are also fitted with extra larger guides and three inter-changeable tips. The Medium Feeder is available in lengths of 3.60m, 3.90m and 4.20m with casting weights of 90g-150g. Included Feeder tips: 1,5/2,0/2,5 oz.

#### **EXCLUSIVE HEAVY FEEDER**

Climax has designed the most powerful rod in its feeder ranger to cast heavy baits accurately and over long distances. Despite their enormous strength, these rods are still very light, slim, and

extremely sensitive, as well as possessing a rapid action. The balanced curve of the HM/IM carbon fibre blank provides the perfect springboard and can be relied upon control fiercely-fighting fish. FUJI reel seats, SIC guides, a top-quality cork handle and three inter-changeable tips with extra larger guides round off a really fine rod. The Heavy Feeder is available in lengths of 3.90m and 4.20m, with casting weights of 160g-210g.

Included Feeder tips: 2,0/2,5/3,0 oz.

You want to protect your valuable rods and reels securely from damage! The SPORTEX Super Safe cases are not only practical and roomy, they provide double protection in comparison with other bags. On the one hand by means of a flexible, attached inner shell made of shock-resistant PVC, on the other by means of a waterproof, abrasion-resistant outer surface made of 1.680 D nylon woven fabric.

The fitting with robust, corrosion-protected metal zip fasteners, padded interior sections and padded shoulder straps is typically SPORTEX functional and designed for many years' use. All large bags additionally have a new and easy-to-use rucksack function, that facilitates the transportation of your rods even more. In addition, all of the bags have a practical fitting for hanging up your bags. Each SPORTEX case is an ID for your valuation of your passion.

#### Rod bag SUPER-SAFE

for 1 rigged rod. The perfect protection for your rod. From 125cm up to 165cm.

#### II Rod bag SUPER-SAFE

for 2 rigged rods. Elaborate SUPER SAFE rod case with padded inner sections. From 125cm up to 165cm.

#### III Rod bag SUPER-<u>SAFE</u>

with 3 compartments for 3 rigged or several unrigged rods. Outstanding padded lining for total reliability. Padded shoulder strap and high-quality zip fasteners as for all SUPER SAFE models. From 125cm up to 190cm.

#### IV XXL Rod bag

for 4 rigged or several unrigged rods. Three well-lined inner sections. A real safe for your valuable rods. Length: 165cm.

This super-light, premium rain jacket for demanding "all-weather"-fishermen was tested well over one year in Germany and Norway. The results were excellent and thus this new jackets leaves hardly any wishes open. The specially developed "three-layer" - breathable material is highly waterproof as well as windproof. Especially during active fishing, e.g. spin fishing, the breathable material will be of extreme value to any avid fisherman. Tapered seems, high quality waterproof

zippers and enough space in various pockets — this jacket keeps its promises. The hood is preformed and fits well on any head. It is a bit more spacious to leave some extra room to move a hat should also still fit beneath. The cuffs can be individually adjusted and the arms are long enough to protect and leave room during casting and moving.

#### Material:

- 100% Nylon, PU-membrane
- Sizes: M,L,XL,XXL
- WC: 10.000mm H.0
- MVP: 8.000gr/m<sup>2</sup>/24h

### Exkin® Platinum Outer shell Inner shell Radiation Body

#### SPORTEX Thermo winter jacket for cold days out fishing

This really lightweight thermo-jacket keeps you warm - promised! The newly developed artificial down-feather called Exkin® delivers topwarmth and can easily be cleaned, washed and dried. Especially for fishermen, this offers a huge advantage to real down feather.

The outer shell is hard-wearing, water- and wind repellent. The zippers are of high quality, where necessary waterproof, and the large front pockets offer a lot of space. Of course, the pockets are made by fleece material on the inside – your hands will be thankful. The jacket closed up high and thus offers perfect protection from wind and weather. Also on this jacket, the hood, kept by a quality-zipper, keeps wind and rain away effec-

If fishing is impossible during some winter days, - this jacket will also keep you warm and in shape on the slope.

#### Material:

- outer shell: 100% Nylon, PU-membrane
- inner shell: Exkin®, 100% Polyester
- WC: 10.000mm H<sub>2</sub>0
- MVP: 5.000gr/m<sup>2</sup>/24h
- Sizes: M,L,XL,XXL

#### **SPORTEX Base-cap**

Modern cut, black base-cap with SPORTEX embroidery. Material: 100% cotton

#### **SPORTEX Polo-Shirt**

Functional polo-shirt in black and yellow design with embroidered SPORTEX logo on front and back.

Color-coordinated collar and cuffs as well as a 2-button tab.

Material: 100% cotton Available sizes: M, L, XL, XXL
